

Have you benefited from the leadership of women religious?

Cultivate HOPE 2025

and foster the emergent leadership of women religious!

LEADERSHIP COLLABORATIVE

Our mission is to foster transformational leadership for religious life and the gospel mission, now and into the future. We began with a collaborative vision to envision leadership to meet the needs of the complexity of our current and future realities. We continue to create programs that capture the hearts and minds of women religious who seek space for the conversations that are needed today, gazing over the horizon to what is emerging.

EVENT INFORMATION | JUNE 3 - 7, 2025 | ROME

HOPE 2025 is a 4-day gathering in Rome that expects to gather around 300 sisters in-person and another 300 attending virtually from across the globe. Offered in 5 languages, it is a historic moment bringing the global sisterhood into a concrete reality. This gathering is designed for sisters under the age of 65 years old and the focus is networking and dialogue about how we are leading into the future for religious life and the church. This is the 2nd HOPE gathering. The inaugural gathering was held in January 2024 in Chicago. With over 350 sisters gathered, there was a call to expand these gatherings to build the necessary bridges for our current and future realities.
